To whom it may concern,

Megapac Manufacturing highly recommends Websentials and their services. The team developed a professional website and met all our requests. They were helpful and quick on responding to any changes we needed. The process was so swift and seamless that we developed another website with them.

A handwritten signature in black ink, appearing to read 'Edwin Tay', is written over a horizontal line. To the right of the signature is a circular stamp with the text 'MEGAPAC MANUFACTURING PTE LTD' around the perimeter and a small star on the right side.
